

EOS

A detailed illustration in a classic, engraved style. On the left, a fox is shown in profile, looking towards the right, nestled among tall grass and reeds. On the right, a bird, possibly a quail or similar gamebird, is depicted facing left, also in a natural setting with vegetation. The illustration is rendered in a golden-brown hue against a textured, parchment-like background.

STRAORDINARIO E PERFETTO

EXTRAORDINARY AND PERFECT

- *La cromatura interna, la brunitura e tutte le protezioni superficiali sono eseguite con procedimenti speciali che ne garantiscono la massima durata.*
 - *Canne testate per sparare pallini d'acciaio*
 - *Assistenza assicurata, grazie ai 3 anni di garanzia dell'arma*
-
- *The inner chrome plating, the polish and all protections are realised through special procedures which guarantee the utmost lifetime of the shotguns.*
 - *Steel shot proof barrells*
 - *Assured assistance, thanks to 3 years gun warranty*

Il sovrapposto EOS è consegnato in una comoda e resistente valigetta in ABS con vani separati ed interni in spugna, ricca dotazione con strozzatori di ricambio, chiave per smontaggio e attrezzo per rimozione del calciolo.

The EOS over & under shotgun is hand in with comfortable and resistant ABS case with separated spaces and foam inside, rich equipment with spare chokes, unmount tool and butt removal tool.

EOS

EOS STEEL SP

EOS LIGHT SP

- *Basculi in Ergal 55 rendono l'arma più leggera e maneggevole*
- *Ricerche incisioni con riporti in oro conferiscono carattere all'arma*

- *Ergal 55 actions make the gun lighter and easy to handle*
- *Refined engravings with gold fills give character to the gun*

EOS TRAP / SPORTING

Mirini ad alta visibilità in fibra ottica.
Strozzatori interni (strozzatore raggiato per
calibro 12 e 20 a richiesta), versioni Extended
10 mm per Trap e Sport.

High visibility optic fibre front sight.
Inner chokes (rifled choke for 12/20 g. on
request) Extended 10 mm version for Trap
and Sport.

Le parti principali di
ogni fucile sono ricavate da un massello forgiato e
successivamente lavorate con macchine
a controllo numerico. Il monoblocco è in acciaio
speciale (42NiCrMo4).

Tutte le bascule in Ergal 55 sono stampate a caldo
e controllate con il sistema dei liquidi penetranti.

The main components of each gun, are all made
from solid forgings and then they are machined
on CNC machines.

The monoblock is made in special steel
(4NiCrMo4). All the actions in Ergal 55 are made
from solid forgings and are controlled with a
system of liquid penetrants.
